death of James B. Wilson Sr. in 1906 claimants
have maintained cattle on the same range
using waters from this spring as Wilson Bros.
Their cattle are and have been the only cattle on
the range and using this spring. The spring was
dug out and cleaned out and reservoir and dam
made in 1847, and has been cleaned out and
dam renewed and maintained each year thereafter.
Cattle of claimants use the entire flow of
about one minus inch at the dam and
reservoir at spring.
