(19) The map provided by the State Engineer and attached hereto as a part of this proof is hereby accepted as correctly showing the ditch lines or irrigation works diverting or conveying the water claimed and the lands irrigated.

(20) Water from the source given and through the works described is also used for the following purposes other than irrigation: Domestic + stock purposes.

(21) Remarks: The water was running at the Schwartz place in six by six inch full force in 1893, when we moved here. And have had peaceful possession ever since.

Early settlers will say that long before that time there was always a good flow in any of the by ditches here.

While at the Burnham place there was no vegetation grown to our recollection. But in early days a small peach orchard had been set out, but it died up and died for the want of water, and it has never been anything but a sick pile ever since, until about a year ago, Christensen put it into grass. Land started to muddle with the water.
