(20) Water from the source given and through the works described is also used for the following purposes other than irrigation: *Domestic Stock - culinary*

(21) Remarks: *in regard to the amount of land irrigated each and ever year was about 60 acres I used part of it for Pasture and the rest I cultivated - or planted the brush and raised hay and grain and other crops. I was divided in the amount of cultivated land and pasture. The pasture was not surrounded because it has brush on it. Now I irrigated most of my ranch from the channel until I could dig my ditches. Now in 1902 I planted about 20 acres in Walnuts and Peas. and in 1904 I replanted the same ground to Walnuts and Peas. They all winter killed. Since made pasture of it.*
