(18) The claimant's water right was (~~was~~ ~~not~~) recorded in the office of the County Recorder of Humboldt County, said record being at page of Book A of Water Claims, and being a claim for 388 inches of water for the irrigation of 130 acres of land in the following legal subdivisions:

NOTE—Failure to record in the county in no way invalidates a water right, but if ditch or right was so recorded, supply full information under (19)

(19) The map provided by the State Engineer and attached hereto as a part of this proof is hereby accepted as correctly showing the ditch lines or irrigation works diverting or conveying the water claimed and the lands irrigated.

(20) Water from the source given and through the works described is also used for the following purposes other than irrigation: Stock Water

(21) The character of the soil is Sandy loam (Sandy, gravelly, loam) The soil needs ..... acre-feet per annum to properly irrigate the crops. A continuous flow of ..... cubic feet of water per second, during the irrigation season of ..... months, is needed to irrigate each 100 acres of land.

Remarks: A copy of the Frank Hammond Water Rights taken from the Court House Records in the Recorders Office, at Winnemucca, Nevada, is hereby attached, and made a part of these proofs for the reason that it shows the early claim of Frank Hammond in and to the waters of said Huffords or Jake Creek. The present dimension of all ditches is given as no data could be obtained as to their original size.
