

THE STATE OF NEVADA

01542

PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

From Little Battaman Springs----690 ft. North East of Battaman Sp.

Name of natural water course

Through Dams and Reservoirs

Name of ditch, pipe line, etc.

J. B. Humphrey, the undersigned, being first

duly sworn, deposes and says that the statements herein contained relative to the appropriation of water by him are full and correct to the best of his knowledge and belief.

Proof is made by Affiant as President of Company

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant Sharp Land and Cattle Company

Address Goldfield, County of Esmerelda

State of Nevada

(2) The means of diversion employed is Dams and Reservoirs

Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in Reservoirs

Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun 1873

and completed 1873

(5) The nature of the claimant's title to the land upon which the works are located is

Possessory-- Construction Notice of rights of way by

actual occupation of ground

(6) The claimant's water right was (was not) recorded in the office of the County Recorder of

County, at Page of Book of

(7) The approximate number of animals watered by the claimant during the first year was 1000,

and said watering was conducted for an approximate period of 30-31 days during each

of the following months January and December Both inclusive

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

Approximately 1000 head of Cattle have been watered at the reservoirs since the initiation of the right. That is to say, at the Battaman Group of Springs such stock is watered.

(9) The amount of water which it has been necessary to divert for the said purpose has been

1/10 One tenth cubic feet per second.
40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at North 80° East 690 feet from Battaman Spring in the N E $\frac{1}{4}$ of the ^{Tie Spring to nearest 5 minutes distance} ~~the~~ corner of Section 28, T. 3 N., R. 57 E., Mount Diablo Base and Meridian.

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at Above point given in question 10
Described as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks:

Little Battaman Springs belongs to a group which is included by Battaman Springs, however, this sheet is appended to the Proof of Battaman Spring so as to avoid any possibility of Little Battaman Spring from being excluded from the group. It undoubtedly lies in the same 40 acre tract as Battaman Spring proper but as the section lines have not been run it is uncertain. However, all the springs can be covered in 40 acres.

THE STATE OF NEVADA
PROOF OF APPROPRIATION OF WATER FOR
STOCK WATERING PURPOSES

From Battaman Spring, Nye County, Nevada.
Name of natural water course

Through Reservoirs -- Dams
Name of ditch, pipe line, etc.

I. B. Humphrey, the undersigned, being first
duly sworn, deposes and says that the statements herein contained relative to the appropriation of
water by him are full and correct to the
best of his knowledge and belief.

Proof is made by affiant as President of the Claimant Company
If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant Sharp Land and Cattle Company
Address Goldfield, County of Esmerelda
State of Nevada

(2) The means of diversion employed is Dams and reservoirs
Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in Reservoirs
Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun 1873
and completed 1873

(5) The nature of the claimant's title to the land upon which the works are located is
~~Possessory~~ Constructive notice for rights of way
for reservoirs by actual occupation of land.

(6) The claimant's water right was (was not) recorded in the office of the County Recorder of
County, at Page of Book of

(7) The approximate number of animals watered by the claimant during the first year was 1000
and said watering was conducted for an approximate period of 30-31 days during each
of the following months January to December both inclusive

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

Approximately 1000 head of Cattle have been watered at the springs since the rights to water were initiated

(9) The amount of water which it has been necessary to divert for the said purpose has been

(1/10) One tenth cubic feet per second.

40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at S 30° W 5340 feet from

True bearing to nearest 5 minutes distance

the SE corner of Section 16, T. 3 N., R. 57 E.,
Mount Diablo Base and Meridian. Approximately in NE 1/4 Sec 28 said Tp.

NOTE—Information under (10) must invariably be given when a public corner is within 8 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at above point

Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks:

The main reservoir at Battaman Spring is 200 feet long by 75 feet wide and lies about 200 feet south 60° East of Spring. The spring constitutes a series of small sources covering an area of 2 acres of ground.

Remarks:

The water is also used to water the surrounding ground for feed thus consuming the entire flow which is then insufficient.

J. B. Humphrey

Subscribed and sworn to before me this 18th day of February, 1920.

J. H. Peterson

Notary Public in and for the County of Washoe.

My commission expires Feb. 18th, 1920.
