THE STATE OF NEVADA

01658

PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

From Sage Hen spring
Name of natural water course
Through widening of channel of flow and using dams
Name of ditch, pipe line, etc.

the undersigned, being first duly sworn, deposes and says that the statements herein contained relative to the appropriation of water by The Adams-McGill Company are full and correct to the best of his knowledge and belief.

manager of The Adams-McGill Company
If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant The Adams-McGill Company
Address Fly, County of White Pine
State of Nevada

(2) The means of diversion employed is widening the channel and dams
Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in reservoirs
Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun in 1903
and completed in 1903

(5) The nature of the claimant's title to the land upon which the works are located is
spring is on land owned by the U. S. Government

(6) The claimant's water right was (was not) recorded in the office of the County Recorder of
County, at Page of Book of

(7) The approximate number of animals watered by the claimant during the first year was 2,500
and said watering was conducted for an approximate period of 8 months days during each
of the following months April to November inclusive

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

there have been about 2,500 sheep watering at this spring
each year since 1903; this country is used by The Adams-
McCill Company each year for lambing purposes.

(9) The amount of water which it has been necessary to divert for the said purpose has been
 $\frac{3}{10}$ cubic feet per second.

40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at N 40° 15' E, 5050 feet from
the north 1/4 corner of Section 27, T. 10N, R. 64 E.,
Mount Diablo Base and Meridian.

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at SW 1/4 of NW 1/4, S 23, T 10N, R. 64E
Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks: The channel of flow from this spring was widened and
dams were put in to form small reservoirs or pools
to form drinking places for the sheep; these pools have
been kept up so that the sheep have been watered each
year.
