THE STATE OF NEVADA  
PROOF OF APPROPRIATION OF WATER FOR  
STOCK WATERING PURPOSES

From Quartzite spring No. 2  
Name of natural water course  
Through widening of channel of flow and using dams  
Name of ditch, pipe line, etc.

....., the undersigned, being first  
duly sworn, deposes and says that the statements herein contained relative to the appropriation of  
water by The Adams-McGill Company are full and correct to the  
best of his knowledge and belief.

manager of The Adams-McGill Company  
If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant The Adams-McGill Company  
Address Ely, County of White Pine,  
State of Nevada

(2) The means of diversion employed is widening the channel, and dams  
Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in reservoirs  
Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun in 1903  
and completed in 1903

(5) The nature of the claimant's title to the land upon which the works are located is  
spring is on land owned by the U. S. Government

(6) The claimant's water right ~~was~~ <sup>was not</sup> recorded in the office of the County Recorder of  
County, at Page of Book of

(7) The approximate number of animals watered by the claimant during the first year was 2,500,  
and said watering was conducted for an approximate period of 8 months <sup>days</sup> during each  
of the following months April to November inclusive

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

there have been about 2,500 sheep watering at this spring each year since 1903; this country is used by The Adams-McGill Company each year for lambing purposes.

(9) The amount of water which it has been necessary to divert for the said purpose has been

$\frac{3}{10}$  cubic feet per second.

40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at N  $28^{\circ} 30'$  E, 1700 feet from the north  $\frac{1}{4}$  corner of Section 27, T. 10N, R. 64 E., Mount Diablo Base and Meridian.

True bearing to nearest 5 minutes distance

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at NW  $\frac{1}{4}$  of SE  $\frac{1}{4}$ , Sec 22, T 10N, R 64E

Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks: The channel of flow from this spring was widened and dams were put in to form small drinking pools; these make very convenient watering places for animals, and this method is ideal where the water does not sink rapidly.

Remarks: .....
