

THE STATE OF NEVADA

01669

PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

From Bennett Spring

Name of natural water course

Through channel of flow of spring

Name of ditch, pipe line, etc.

W. H. McGill

the undersigned, being first

duly sworn, deposes and says that the statements herein contained relative to the appropriation of water by The Adams-McGill Company are full and correct to the best of his knowledge and belief.

manager of The Adams-McGill Company

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant The Adams-McGill Company

Address Ely, County of White Pine

State of Nevada

(2) The means of diversion employed is dams and ditch at first

Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in small reservoirs at first

Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun in 1900

and completed in 1900

(5) The nature of the claimant's title to the land upon which the works are located is

on land acquired by The Adams-McGill Company through purchase

(6) The claimant's water right was (was not) recorded in the office of the County Recorder of

County, at Page of Book of

(7) The approximate number of animals watered by the claimant during the first year was 2,500

and said watering was conducted for an approximate period of 8 months days during each of the following months April 1st to November 30th

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

the waters of this spring have been used each subsequent year by The Adams-McGill Company for watering approximately 2,500 sheep; this spring is on the range used each year as a lambing ground by the Company.

(9) The amount of water which it has been necessary to divert for the said purpose has been

$\frac{1}{40}$ cubic feet per second.

40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at N 64° 30' E, 14,220 feet from

True bearing to nearest 5 minutes distance

the SW corner of Section 9, T. 12N, R. 65 E,

Mount Diablo Base and Meridian.

NOTE—Information under (10) must invariably be given when a public corner is within 5 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at SE $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec 2, T. 12N, R. 65E, M. D. M.

Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks: in the beginning of the use of the waters of this spring, dams were put across the channel to form small pools of water for the use of the sheep, but, as sufficient water was not gotten for the sheep, 200 feet of wooden troughs were installed to impound the water, at the expense of the Company. It is unusual for the water to flow off the land owned by the Company.

Remarks:
