

THE STATE OF NEVADA

PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

1930  
No 01679

From SOUTH BRANCH OF SHEEP CREEK  
Name of natural water course

Through channel of flow  
Name of ditch, pipe line, etc.

W. H. McGill, the undersigned, being first duly sworn, deposes and says that the statements herein contained relative to the appropriation of water by The Adams-McGill Company are full and correct to the best of his knowledge and belief.

manager of The Adams-McGill Company  
If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant The Adams-McGill Company  
Address Ely, County of White Pine,  
State of Nevada

(2) The means of diversion employed is dams across the channel  
Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in small reservoirs  
Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun in 1903  
and completed in 1903

(5) The nature of the claimant's title to the land upon which the works are located is part is  
owned by the Company through purchase, and part is owned  
by the United States Government

(6) The claimant's water right ~~was~~ (was not) recorded in the office of the County Recorder of  
County, at Page of Book of

(7) The approximate number of animals watered by the claimant during the first year was 2,500,  
and said watering was conducted for an approximate period of 8 months ~~days~~ XXX during each  
of the following months April 1st to November 30th

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

The waters of this creek have been used in subsequent years for watering approximately 2,500 sheep each year. This appropriation is made on a range used by the Company each year as a lambing ground. The Company owns a little of the land over which the stream passes.

(9) The amount of water which it has been necessary to divert for the said purpose has been

1 cubic feet per second.  
40 miners inches equals 1 cubic foot per second

(10) The water is ~~diverted from its source~~ impounded in small pools in ~~XXXXXX~~ the channel of the stream at description given under answer 11 the corner of Section \_\_\_\_\_, T. \_\_\_\_\_, R. \_\_\_\_\_ E., Mount Diablo Base and Meridian.

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at NW $\frac{1}{4}$  of NW $\frac{1}{4}$ , Sec 2, and NE $\frac{1}{4}$  of NE $\frac{1}{4}$ , Sec 3, T 9N, R 64E, and S  $\frac{1}{2}$  of SE $\frac{1}{4}$ , Sec 34, T 10N, R 64E, L. D. M.  
Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks: Small dams have been built across the channel of the creek to cause small pools to form and so making convenient and practical watering places for the sheep. These are kept up from year to year. The sheep come into this stream on the full length of its course - coming in to the most convenient point from the land where they have been ranging.
