

THE STATE OF NEVADA

PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

From SHEEP CREEK Name of natural water course

Through channel of flow Name of ditch, pipe line, etc.

W. N. McGill, the undersigned, being first

duly sworn, deposes and says that the statements herein contained relative to the appropriation of water by The Adams-McGill Company are full and correct to the best of his knowledge and belief.

Manager of The Adams-McGill Company

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant The Adams-McGill Company

Address Elv, County of White Pine

State of Nevada

(2) The means of diversion employed is dams across the channel Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in small reservoirs Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun in 1903 and completed in 1903

(5) The nature of the claimant's title to the land upon which the works are located is the large part is owned by the United States Government, and a small part is owned by The Adams-McGill Company

(6) The claimant's water right was (was not) recorded in the office of the County Recorder of County, at Page of Book of

(7) The approximate number of animals watered by the claimant during the first year was 500, and said watering was conducted for an approximate period of 8 months days during each of the following months April 1st to November 30th

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

The waters of this creek have been used each subsequent year by the Company for watering about 2,500 sheep. This creek is on a range which is used each year by the Company as a lambing ground. The Company owns a small amount of land crossed by this creek - it is the only ^{land} held under private ownership which is touched by the waters of this stream.

(9) The amount of water which it has been necessary to divert for the said purpose has been

1 cubic feet per second.
40 minor inches equals 1 cubic foot per second

(10) The water is ~~diverted from its source~~ impounded in small pools in ~~feet from~~ the channel of the stream at description given under answer 11 the True bearing to nearest 5 minutes distance corner of Section _____, T. _____, R. _____ E., Mount Diablo Base and Meridian.

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at $NE\frac{1}{4}$ of $NW\frac{1}{4}$, and $NW\frac{1}{4}$ of $NE\frac{1}{4}$, Sec 4, T 9N, R 64E; $SE\frac{1}{4}$ of $SE\frac{1}{4}$, Sec 33, and $SE\frac{1}{2}$ of $SW\frac{1}{4}$, and $SW\frac{1}{4}$ of $SE\frac{1}{4}$, Sec 34, T 10N, R 64 E. Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks:

Small dams have been built across the channel of the creek to cause small pools to form and so making convenient and practical watering places for the sheep. These are kept up from year to year. The sheep come into this stream on the full length of its course - coming in to the most convenient point from the land where they have been ranging.

This part of form to be left blank by claimant
