

THE STATE OF NEVADA
PROOF OF APPROPRIATION OF WATER FOR
STOCK WATERING PURPOSES

From NORTH CREEK
Name of natural water course

Through channel of flow
Name of ditch, pipe line, etc.

W. N. McGill, the undersigned, being first
duly sworn, deposes and says that the statements herein contained relative to the appropriation of
water by The Adams-McGill Company are full and correct to the
best of his knowledge and belief.

manager of The Adams-McGill Company

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant The Adams-McGill Company

Address Ely, County of White Pine

State of Nevada

(2) The means of diversion employed is dams across the channel
Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in small reservoirs
Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun in 1903
and completed in 1903

(5) The nature of the claimant's title to the land upon which the works are located is partly
owned by The Adams-McGill Company and partly owned by the
United States Government

(6) The claimant's water right ~~was~~ (was not) recorded in the office of the County Recorder of
County, at Page of Book of of

(7) The approximate number of animals watered by the claimant during the first year was 5,000,
and said watering was conducted for an approximate period of 8 months days during each
of the following months April 1st to November 30th

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

Approximately 5,000 sheep have been watering on this creek in subsequent years. This appropriation is made on a range used each year by the Company as a lambing ground; the Company owns three forty-acre tracts upon which this stream courses - the remaining part of the stream is upon Government land; the Company owns the only land held under private control in this vicinity.

(9) The amount of water which it has been necessary to divert for the said purpose has been

1 cubic feet per second.

40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at ~~the~~ impounded in small pools in ~~feet~~ from the channel of the stream at description given under answer 11 ^{True bearing to nearest 5 minutes distance} the ~~the~~ corner of Section ~~the~~, T. ~~the~~, R. ~~the~~ E., Mount Diablo Base and Meridian.

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at NE $\frac{1}{4}$ of NW $\frac{1}{4}$, and S $\frac{1}{4}$ of NW $\frac{1}{4}$, Sec 26, and SE $\frac{1}{4}$ of NE $\frac{1}{4}$ and N $\frac{1}{2}$ of N $\frac{1}{2}$, Sec 27, and N $\frac{1}{2}$ of NE $\frac{1}{4}$, and NE $\frac{1}{4}$ of NW $\frac{1}{4}$, Sec 28, all in T 10N, R 64E, M. D. M.

Remarks: Small dams have been built across the channel of the creek to cause small pools to form and so making convenient and practical watering places for the sheep. These are kept up from year to year. The sheep come into this stream on the full length of its course - coming in to the most convenient point from the land where they have been ranging.
