See (22)

NOTE—Failure to record in the county in no way invalidates a water right, but if ditch or right was so recorded, supply full information under (19)

(19) The map provided by the State Engineer and attached hereto as a part of this proof is hereby accepted as correctly showing the ditch lines or irrigation works diverting or conveying the water claimed and the lands irrigated.

(20) Water from the source given and through the works described is also used for the following purposes other than irrigation: stock watering and domestic use.

(21) The character of the soil is gravelly The soil needs _____ acre-feet
(Sandy, gravelly, loam)
per annum to properly irrigate the crops. A continuous flow of _____ cubic feet of water per second, during the irrigation season of _____ months, is needed to irrigate each 100 acres of land.

(22) Remarks: ~~This appropriation is made to clear an omission in the records at the time of the Chandler Findings when the then owner of the herein described property failed to make his claim for a water right, a water right having been originally claimed for the said lands. The chain of title in the ownership of the land from the patentee to the present owner is complete. The water asked for is to cover the following described piece of property:~~
"Commencing 50 feet east of the intersection of Eddie and Minnie streets at the S.W. corner of Lot 13 of the Nelson division of the town of Gardnerville; thence Northerly along the Western side of said Lot 13, 100 feet; Thence Easterly 100 feet; thence Southerly 100 feet; thence Westerly along North side line of Eddy street 100 feet to place of beginning. Being the Southerly 100 feet of Lot 12 and 13 of Nelson's Division of Gardnerville, according to the recorded map made by H.H. Bence of the town of Gardnerville. This tract of land has been continuously irrigated by the present owner and his predecessors in title since 1879."

Map to be supplied within 30 days.
