

THE STATE OF NEVADA

PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

From Cottonwood Spring
Through Natural Channel
William McCurdy, the undersigned, being first

duly sworn, deposes and says that the statements herein contained relative to the appropriation of water by Butte Valley Sheep Co. are full and correct to the best of his knowledge and belief.

Deponent is predecessor in interest to claimants
If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant Butte Valley Sheep Co.
Address G. V. H. Vargas Ely, County of White Pine
State of Nevada

(2) The means of diversion employed is Natural Channel

(3) The water is impounded in Reservoir 30 ft diam
Dam and ditch, pipe line, flume, etc.

(4) The construction of the ditch or other works was begun in 1879
and completed Rebuilt each year until 1898
Troughs, reservoirs, tanks, etc.

(5) The nature of the claimant's title to the land upon which the works are located is Public government Land

(6) The claimant's water right ~~was~~ (was not) recorded in the office of the County Recorder of _____ County, at Page _____ of Book _____ of _____

(7) The approximate number of animals watered by the claimant during the first year was 2000, and said watering was conducted for an approximate period of 20 days during each of the following months April 1st to Nov. 1st

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

Approximately 2000 sheep were watered each
and every year - 1879 to 1897

(9) The amount of water which it has been necessary to divert for the said purpose has been

0.15 cubic feet per second.
40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at $N. 85^{\circ} 30' E. 3198.0$ feet from
the West $\frac{1}{4}$ Sec corner of Section 6, T. 24 N., R. 68 E.,
Mount Diablo Base and Meridian.
True bearing to nearest 5 minutes distance

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at $N. 77^{\circ} 30' E. 120$ ft from point of divergence
Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks: In the year 1879 the deponent and one Jas. Hutton leased approximately 2000 sheep from James Sampson and ran them on the range adjacent to Chin Creek Ranching Antelope Valley. During the period from Apr. 1st to Nov. 1st the sheep were watered at the above named spring at different intervals during this time. After the termination of said lease the deponent and his partner through the lease and by purchase secured over 2000 sheep of their own which they continued to water at the above spring until in 1897, when they sold their sheep and other interests to McCurdy and Chapman, the sheep of the Tippet Mers. Co. also watered at the above spring. It was necessary to rebuild the reservoir each year.

THE STATE OF NEVADA

PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

From Cottonwood Spring
Name of natural water course

Through Natural Channel
Name of ditch, pipe line, etc.

John Jackson, the undersigned, being first duly sworn, deposes and says that the statements herein contained relative to the appropriation of water by Butte Valley Sheep Co. are full and correct to the best of his knowledge and belief.

An employee of predecessors in interest to claimants
If proof is not made by claimant, claimant should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant Butte Valley Sheep Co.
Address L. V. H. Vargas Ely, County of White Pine
State of Nevada

(2) The means of diversion employed is Natural Channel
Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in Reservoir 30 ft. diam.
Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun prior to 1905 and completed Rebuilt each year until 1919

(5) The nature of the claimant's title to the land upon which the works are located is Public Government Land

(6) The claimant's water right ~~was~~ (was not) recorded in the office of the County Recorder of _____ County, at Page _____ of Book _____ of _____

(7) The approximate number of animals watered by the claimant during the first year was 2000, and said watering was conducted for an approximate period of 20 days during each of the following months Apr 1st to Nov. 7th

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

Approximately 2000 sheep each year deponent was employed in 1905-1906-1912-1913-1914-1917-1919

(9) The amount of water which it has been necessary to divert for the said purpose has been

0.15 cubic feet per second.
40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at $N. 85^{\circ} 30' E$ 3198.0 feet from
the West 1/4 Sec corner of Section 6, T. 21 N., R. 68 E.,
Mount Diablo Base and Meridian.
True bearing to nearest 5 minutes distance

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at _____
Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks: The deponent was employed upon the ranch and with the sheep owned by Frank McCurdy and John Chapman. During this employment he was out with the sheep considerable of the time, moving camp and rebuilding reservoirs so as to furnish water for the sheep. He was thus employed in 1905, 1906, 1912-1913-1914-1917 and 1919.

During each of these years he assisted in rebuilding the reservoir at the above named spring and saw the McCurdy-Chapman sheep with there during different times during each of the years of his employment.
