Remarks: There are three dams; two of rock on upper spring for which this proof is made, which said dams form pools from which the stock drink; this water, from ditches found on ground, was formerly used for irrigation of garden, but not for the last 15 years.

From what information I can obtain, this place was a station on the road from Dixie Valley to Winnemucca, but ~~has~~ the water has only been used for stock purposes during the last 16 years.
