(11) The amount of water which has been necessary to be diverted for this purpose has been All the source produces which varies from summer to winter cubic feet per second.

448.83 gal. per min. equals 1 cubic foot per second.

(12) The works are located at NW 1/4 NW 1/4 Section 21, T. 17N., R. 58E Describe as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed land, it should be stated.

Remarks This spring has been used to water livestock for over 100 years. It is an important source of water for the operation of the ranch. The location is such that the grazing allotment can be more fully utilized from this water source. The spring is cleaned out from time to time, when necessary, by ranch foreman in order to maintain the flow.

Remarks The ranching operation which this spring is commensurate to has dates on record  
of application for patents of 1871 by James Menple, 1872 by Frank Betschman,  
188 by Charles Johnson, and 1887 by James McMenemy or McMenamin.

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropri-  
ation of water by United Dressed Beef, Inc.  
are full and correct to the best of his knowledge and belief.

Donald D. Eldridge - Agent

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant.
