(11) The amount of water which has been necessary to be diverted for this purpose has been.....
All the sources produces which varies from summer to winter
..... cubic feet per second.
448.83 gal. per min. equals 1 cubic foot per second.

(12) The works are located at NW 1/4 NE 1/4 Section 9, T20N, R55E.
Describe as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed
land, it should be stated.

Remarks This spring has been used to water livestock for over 100 years. It is
an important source of water for the operation of the ranch. The location is such
that the grazing allotment can be more fully utilized from this water source.
The spring is cleaned out from time to time, when necessary, by ranch foremen
in order to maintain the flow.

Remarks Held Spring No. 8 is located on the hillside just south of the
Eldridge Ranch headquarters about 1 mile. Since most of the water in the area
is inside the fenced land, this spring is valuable for water for cattle and
sheep close to the ranch. Commensurate land close to this spring dates back to
applications for patents in the 1880's. (See other Held Springs for more
information),

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropri-
ation of water by United Dressed Beef, Inc.
are full and correct to the best of his knowledge and belief.

Donald D. Eldridge - Agent

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant.
