

THE STATE OF NEVADA

PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

From Badger Creek and Springs
Name of natural water course

Through Natural Channels
Name of ditch, pipe line, etc.

W.F. and Letha M. Cockrell, the undersigned, being first duly sworn, depose and say that the statements herein contained relative to the appropriation of water by their them are full and correct to the best of ~~his~~ knowledge and belief.

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimants W.F. and Letha M. Cockrell
Address Eagleville, County of Modoc
State of California

(2) The means of diversion employed is _____
Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in _____
Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun _____
and completed _____

(5) The nature of the claimant's title to the land upon which the works are located is _____
Patented and public lands

(6) The claimant's water right ~~was~~ (was not) recorded in the office of the County Recorder of _____
County, at Page _____ of Book _____ of _____

(7) The approximate number of animals watered by the claimant during the first year was _____
and said watering was conducted for an approximate period of _____ days during
each of the following months _____

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

Since approximately the year 1880, 500 to 3500 head of cattle and from 1000 to 2500 head of sheep have been ranged by claimants or their predecessors in interest, on their patented lands and the adjacent public range, and watered at the source upon which this proof is made, during each year. Sufficient numbers of livestock have in the past been kept to utilize all the public range claimed and designated on the range map submitted by these claimants, and it is proposed to continue such use.

(9) The amount of water which it has been necessary to divert for the said purpose has been.....
.....cubic feet per second.
40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at.....feet from
True bearing to nearest 5 minutes distance
the.....corner of Section....., T....., R.....E.,
Mount Diablo Base and Meridian.

Note—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at.....
Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)
