

THE STATE OF NEVADA
PROOF OF APPROPRIATION OF WATER FOR
STOCK WATERING PURPOSES

FILED
May 10, 1965
STATE ENGINEER'S OFFICE

From Illipah Creek
Name of natural water course
Through High Line Ditch and Jakes Pond diversion ditch (see remarks)
Name of ditch, pipe line, etc.

Jesse Gardner, the undersigned, being first
duly sworn, deposes and says that the statements herein contained relative to the appropriation of water by
Jesse Gardner are full and correct to the
best of his knowledge and belief.

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant Jesse Gardner c/o Tonopah Stage
Address Ely, County of White Pine
State of Nevada

(2) The means of diversion employed is dam and ditch
Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in Jakes Reservoir (see remarks)
Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun in 1921
and completed in 1922 (see remarks)

(5) The nature of the claimant's title to the land upon which the works are located is
grazing allotment in Jakes Valley

(6) The claimant's water right was ^{Cert. 3756} ~~(was not)~~ recorded in the office of the County Recorder of
White Pine County, at Page 379 of Book 163 of Misc. Records

(7) The approximate number of animals watered by the claimant during the first year was 1000 head,
and said watering was conducted for an approximate period of 255 days during
each of the following months October, November, December, January,
February, March, April, May and June

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

1900 - 1910	1000 head by Moorman
1910 - 1920	1500 head by Moorman
1920 - 1930	2000 head by Moorman & 1000 head by White River Users
1930 - 1940	" " " " " " " " " "
1940 - 1950	" " " " " " " " " "

(9) The amount of water which it has been necessary to divert for the said purpose has been.....

2.0 cubic feet per second. (2 days enroute & 2 days to fill)
40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at N. 70° 22' 00" E., 7708.00 feet from
True bearing to nearest 5 minutes distance

the southeast corner of Section 10, T. 17 N., R. 59 E.,
Mount Diablo Base and Meridian.

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at NW¼ SE¼ Section 9, T. 17 N., R. 59 E., M.D.B. & M.
Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks: Prior to 1921 and in accordance with custom, cattle coming off the Forest and out of higher elevations about October 1st would be provided with water released from the Moorman Ranch. This water collected in approximately a dozen natural depressions and was there used by the cattle. Ice built up along the channel in the winter months and with the January thaw and spring thaw starting in March would again fill these depressions. The cattle, however, used to get bogged down around these depressions, so in 1921 the single large ponds were constructed and the natural depressions by-passed with a ditch.

Jakes Pond is located in the NW¼ SW¼ Section 19, T. 17 N., R. 60 E., Unsurveyed.
