

2nd AMENDED

**THE STATE OF NEVADA
PROOF OF APPROPRIATION OF WATER FOR IRRIGATION**

Source Unnamed Spring #2 (Tributary to Rattlesnake Creek)
Name of natural water source (use separate proofs for each major source)

The water is diverted from its source via Unnamed Ditch
Name of ditch, flume or pipe line

at the following point(s) within the NE¼NW¼ of Section 12, T. 46 N., R. 56 E., MDM, at a point from
List all points of diversion from this source, appending a sheet if necessary

which the N¼ corner of said Section 12 bears N. 61°27' E., 1,415 feet
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed

land, it should be stated

(1) Name of claimant State of Nevada, Department of State Lands for and on behalf of the Nevada Department of Wildlife

Address Nevada Department of State Lands, 505 East King, Carson City, County of Carson City
State of Nevada 898710

Address Nevada Department of Wildlife, 1100 Valley Road, Reno, County of Washoe
State of Nevada 89520

(2) The means of diversion employed diversion dam and ditches
Dam and ditch, pipe line, flume, etc.

(3) The date of the survey of ditch, canal, or pipe line was May 27, 1977

(4) The construction of the ditch or other works was begun 1894
and completed 1904

(5) The dimensions of the ditch or canal as originally constructed were: Width on bottom _____
feet, width on top _____ feet, depth _____ feet, on a grade of _____ feet per thousand feet. (Unknown)

(6) The conduit has not been enlarged.

NOTE - If enlargement or extension of ditch was made, supply information under (7) and (8)

(7) The work of enlargement of the ditch or canal was begun _____ and completed _____.

(8) The dimensions of the ditch or canal as enlarged are: Width on bottom _____ feet, width on top _____ feet, depth _____ feet, on a grade of _____ feet per thousand feet.

(9) The claimant is (is not) an owner in the above-described conduit.

Total interest
If claimant is an owner in the conduit, state interest held on this line

(10) The nature of the title to the land for which the water right is claimed is _____

Fee Title
Fee simple, public domain, etc.

(11) Crops of Meadow and Diversified Pasture have been grown upon the land irrigated. (e.g. alfalfa, native hay, grain, orchard, meadow or diversified pasture)

(12) The water has been used for irrigation from April 1 to October 31 of each year.
Day of month Day of month

(13) List the year of priority for acreages irrigated prior to March 1, 1905, from all points of diversion previously described, with corresponding subdivisions, appending extra sheets if necessary.

<u>DITCH</u>	<u>SEC.</u>	<u>1/4</u>	<u>1/4</u>	<u>T. N.</u>	<u>R. E.</u>	<u>ACRES</u>	<u>TYPE OF CULTURE</u>	<u>DATE OF CULTURE</u>
2	12	NE	NW	46	56	0.35	Meadow	1894 ✓
2	12	NW	NW	46	56	2.12	Meadow	1894 ✓
2	12	NW	NW	46	56	0.52	Diversified	1904 ✓

(14) The maximum acreage irrigated in any year was 2.99 acres.

(15) The water claimed has been used for irrigation each and every year since the right was initiated. Strike out one not wanted

(16) The years during which no water was used for irrigation or during which the full water right was not used were _____

If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given, appending a sheet if necessary

(17) The claimant's water that was not recorded in the office of the County Recorder of _____ County, said record being at page _____ of Book _____ of _____, and being a claim for _____ of water for the irrigation of _____ acres of land in the following legal subdivisions: _____

NOTE - Failure to record in the county in no way invalidates a water right, but if ditch or right was so recorded, supply full information under (17)

(18) Water from the source given and through the works described is also used for the following purposes other than irrigation: Stockwater and Domestic

(19) The character of the soil is sandy loam. A continuous flow of 2½ cubic feet of water per second has been used to irrigate 100 acres of land and 4.0 acre-feet per acre per annum have been used to irrigate the crops.
(Sandy, gravelly, loam)

(20) Remarks: The Elko County Tax Rolls show Frank Bushiazzo on Rattlesnake, which includes Spring #1, #2, and Unnamed Creek. He was on said rolls starting in 1894. Also, Bushiazzo and Bertholman on 160 acres adjoining Frank Bushiazzo Ranch starting in 1904. The Cadastral Survey made in 1904 also shows him within that area. "What's in a Name", a history of Elko County, place names, by Edna B. Patterson, states that Rattlesnake Creek (within the Gold Creek area) originally was called Hick's Creek and Canyon. Frank Bushiazzo, the first homesteader in the canyon changed the name to Rattlesnake Creek. We are claiming water rights 1894 and 1904.

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by State of Nevada, Department of State Lands for and on behalf of the Nevada Department of Wildlife are full and correct to the best of his knowledge and belief Deponent has been authorized by

Item 20 - Remarks

The following is a summary of information gathered in order to establish an approximate date of priority. The other information confirming the use of water and cultures grown has also been collected and enclosed. However, this information has not been included in this summary.

Bruneau River & Willow Creek-Affidavit states that Mr. Charlie Pearson and Mr. Jesson built the reservoir (Charleston Reservoir) in 1894 and irrigated lands from these two sources. Refer to Affidavit in Book 242, Page 532 recorded in Elko County.

Badger Creek-Affidavit states use of water for mining purposes in 1893 by C.E. Pearson. Refer to Affidavit in Water Rights Book No. 2, Page 183 recorded in Elko County.

Also refer to Affidavit in Book 242, Page 530 of Elko County indicating irrigated lands well established in 1910 when Alex Palacio's father owned this land.

Cottonwood Creek-Affidavit states use of water for mining purposes in 1900 by D.F. and A.P. Shively. Refer to Water Rights Book No. 2, Page 365 recorded in Elko County.

Bruneau River at Miller Creek and Miller Creek-Affidavit states waters from Miller Creek and Bruneau River were used for irrigation in the late 1800's. Refer to Book 242, Page 528 recorded in Elko County.

Irrigation from Miller Creek and Bruneau River also mention in Affidavit under Book 242, Page 533 of Elko County.

Affidavit states use of water for mining purposes in 1893. Refer to Water Rights Book No. 2, Page 206 recorded in Elko County.

Bruneau River at Rowland and McDonald Creek-Affidavit states that waters from these sources were used for irrigation as far back as 1890. Refer to Book 242, Page 528 of Elko County.

Further research is needed in order to clearly define priorities for the remaining points of diversion and sources of water. However, we uphold our claim that water use under these points and source was initiated prior to 1900.

Rattlesnake Creek-Additional cultivated acreage irrigated by Rattlesnake Creek and located in Sections 11 and 10, T 46 N, R 56 E, MDM, should be covered under this proof. This acreage is not shown on the supporting maps or included on the cultural tabulations. Due to weather conditions enlargements of the aerial photographs were not legible.

At such time as the State Engineer publishes a notice requesting proofs of vested rights for all claimants on the Bruneau River, a new aerial photograph will be taken and additional maps and cultural tabulations will be submitted
