(9) The approximate number of animals watered by the claimant during the first year 1865, was 300 cattle horses sheep or 25 deer. The watering was conducted during each of the following months March through November.

Date

Other

(10) The approximate number of animals watered by the claimant in subsequent years was as follows:

200 cattle currently use the water from Table Mountain Spring from June through October. About 50 deer also use this spring.

If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given.

(11) The amount of water which has been necessary to be diverted for this purpose has been .015* cubic feet per second.

448.83 gal. per min. equals 1 cubic foot per second.
