SUPPLEMENT TO AMENDED PROOF OF APPROPRIATION NO. VO4158, SKILLMAN'S SPRING

In 1984, a Proof of Appropriation was filed on the source of this Proof jointly with F. Donald Sokol and Wilfred or Barbara Bailey. The successors to that Proof are the Bailey Family Trust and the Sadler Ranch, LLC. Please refer to the Report of Conveyance previously submitted for both parties as to the chain of title.

This proof did not have a priority date which is not correct in that livestock were grazed in the area from a reported date of 1863, when the ranching operation of the Bailey Family Trust was initiated. The proof was clearly incomplete. Skillman's Spring was originally filed jointly for a total of 1000 cattle.

Please refer to amended Proof V01104 where exhibits are already on file for the Bailey Ranch base property and to Reports of Conveyance to Sadler Ranch, LLC for chain of title and additional priority information. Please refer to the map that accompanied Application No. 37936 to accompany this proof.

The proof as filed was incomplete as it did not provide information as to the number of livestock using the source during the first year or subsequent years, the amount of water diverted or a complete description of the manner of use. However, Application #37936 was for the same spring and claimed 1000 cattle.

This amended proof is to correct the date of priority of use and provide the additional information required for proof. This Amended Proof is made on the present approved State claim form which is substantially different from the form of the original. The numbers of livestock and the amount of water used are for the original claimed.
