(20) Remarks: This proof is submitted with fees and an accompanying report that fully describes the basis of the vested right claimed. Briefly, a water well was drilled on the subject property in the year (approximately) 1900. This well had a reported artesian flow of 112 inches (1256 gpm, 2.8 second feet) at the time it was completed. The well produced geothermal water that was used by the first owner, former Nevada Governor John Sparks, for space heating, washing, recreational (medicinal?) purposes. Outflow from the well supported a pond in which various fish were raised. The present claimant of the vested right did not drill the well, but acquired the property from the previous owner.
