

THE STATE OF NEVADA
AMENDED PROOF OF APPROPRIATION OF WATER FOR
STOCK WATERING PURPOSES

(1) Name of claimant Asamera Minerals (U.S.) Inc.
6121 Lakeside Drive, Suite 130 of Reno
Street and No. or P.O. Box No. City or town
Nevada 89511
State and Zip Code No.

(2) Source of water Cooney Spring West.
Name of natural water source.

(3) The water is diverted by a spring area.
Dam, ditch, pipe line, natural channel, spring area, etc.

(4) The water is diverted at the following point within the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land it should
25, T.18N., R.22E., M.D.B.&M., from which point the East quarter
be stated. Diversion over a channel reach must be described by course and distance to a section corner for both the beginning and end of such
corner of said Section 25 bears N.46°04'22"E. a distance of
reach.
834.60 feet.

(5) The water is impounded in natural channels.
Troughs, tanks, pools, reservoir, natural channel, etc.

(6) The construction of the ditch or other works was begun prior to 1905
Date
and completed prior to 1905.
Date

(7) The nature of the claimant's title to the land upon which the source of water and place of use
are located is deeded.
Patented, deeded, public domain with grazing permit, etc.

(8) The claimant's water right was (~~was not~~) recorded as rights appurtenant to the fee
in the office of the County Recorder of lands
Storey County, at Page 41 of Book 060 of Official Records.

NOTE—Failure to record in the county in no way invalidates a water right, but if water right was so recorded, supply full information under (8).

(9) The approximate number of animals watered by the claimant in the first year prior to 1905 is estimated at a number of horses and burros, and several thousand sheep. ~~and several thousand sheep or~~ The watering ^{Other} was conducted during each of the following months year round. Sheep grazing on this winter range took place from early Autumn to late Spring (exact periods depended on climatic factors and range conditions). A small number of local stock was watered year-round.

(10) The approximate number of animals watered by the claimant in subsequent years was as follows:

Within the general vicinity, bands of 2,000 or more sheep each grazed the area, tended by a shepherd with a burro or two. Additionally, teams of horses used by the camp tender were watered. Fifteen to twenty bands grazed the area each season, watering at various springs. The estimated cumulative total is thus approximately 40,000 animals watered per season within the entire region, encompassing a number of springs.

(11) The amount of water which has been necessary to be diverted for this purpose has been 0.1 cubic feet per second.
448.33 gal. per min. equals 1 cubic foot per second.

(12) The works are located ~~at~~ within the NE¹/₄ of the SE¹/₄ of Section 25, T.18N., R.22E., M.D.B. & M.
Describe as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed land, it should be stated.

Remarks Asamera acquired the 103,000 acre fee property within which this spring is located from C-W Nevada in July of 1987. Asamera is currently compiling data and historical information regarding this proof, and these efforts are continuing.

Remarks

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by Asamera Minerals (U.S.) Inc. are full and correct to the best of his knowledge and belief.

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant.
