

THE STATE OF NEVADA

AMENDED PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

(1) Name of claimant Asamera Minerals (U.S.) Inc.
6121 Lakeside Drive, Suite 130 of Reno
Street and No. or P.O. Box No. City or town
Nevada 89511
State and Zip Code No.

(2) Source of water Sutro Spring #3
Name of natural water source.

(3) The water is diverted by spring area.
Dam, ditch, pipe line, natural channel, spring area, etc.

(4) The water is diverted at the following point within the SE 1/4 of the NW 1/4 of
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land it should
Section 18, T.17N., R.22E., M.D.B.& M., from which point the
be stated. Diversion over a channel reach must be described by course and distance to a section corner for both the beginning and end of such
Southeast corner of Section 17, T.17N., R22E., M.D.B.& M. bears
reach.
S.71°27'41"E. a distance of 8879.48 feet.

(5) The water is impounded in natural channels.
Troughs, tanks, pools, reservoir, natural channel, etc.

(6) The construction of the ditch or other works was begun prior to 1905
Date
and completed prior to 1905.
Date

(7) The nature of the claimant's title to the land upon which the source of water and place of use
are located is deeded.
Patented, deeded, public domain with grazing permit, etc.

(8) The claimant's water right was (was not) recorded in the office of the County Recorder of lands
as rights appurtenant to the fee
Storey County, at Page 41 of Book 060 of Official Records.

NOTE—Failure to record in the county in no way invalidates a water right, but if water right was so recorded, supply full information under (8).

(9) The approximate number of animals watered by the claimant during the first year prior to 1905 is estimated at a number of horses and burros, and several thousand sheep. ~~There were also watered a number of cattle, horses, sheep or~~ ^{Other} The watering was conducted during each of the following months year round. Sheep grazing on this winter range took place from early Autumn to late Spring (exact periods depended on climatic factors and range conditions). A small number of local stock was watered year-round.

(10) The approximate number of animals watered by the claimant in subsequent years was as follows:

Within the general vicinity, bands of 2,000 or more sheep each If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given. grazed the area, tended by a shepherd with a burro or two. Additionally, teams of horses used by the camp tender were watered. Fifteen to twenty bands grazed the area each season, watering at various springs. The estimated cumulative total is thus approximately 40,000 animals watered per season within the entire region, encompassing a number of springs.

(11) The amount of water which has been necessary to be diverted for this purpose has been 0.1 cubic feet per second. 448.33 gal. per min. equals 1 cubic foot per second.

(12) The works are located at within the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 18, Describe as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed land, it should be stated. T.17N., R.22E., M.D.B. & M.

Remarks Asamera acquired the 103,000 acre fee property within which this spring is located from C-W Nevada in July of 1987. Asamera is currently compiling data and historical information regarding this proof, and these efforts are continuing.

Remarks:

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by Asamera Minerals (U.S.) Inc. are full and correct to the best of his knowledge and belief.

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant.
