ITEM NO. 10 - LIVESTOCK WATERED BY CLAIMANT IN SUBSEQUENT YEARS

REFER TO ITEM NO.11

ITEM NO. 11 - AMOUNT OF WATER DIVERTED

THE TOTAL VOLUME OF WATER REQUIRED TO SATISFY THE NEED OF 524 HEAD OF CATTLE IS CALCULATED AS FOLLOWS:

$20 \text{ GALLONS PER DAY} \times 524 \text{ HEAD OF CATTLE} \times 215 \text{ DAYS} = 2,253,200 \text{ GALLONS}$

$20 \text{ GALLONS PER DAY} \times 524 \text{ HEAD OF CATTLE} = 10480 \text{ GALLONS PER DAY}$
 $10480 \text{ GALLONS PER DAY} = 0.016 \text{ CFS}$

THE RATE OF FLOW WILL BE CONSIDERABLY SMALLER THAN IS NEEDED TO PROVIDE WATER FOR STOCKWATERING PURPOSES, THEREFORE A VOLUME OF WATER IS MORE REPRESENTATIVE OF THE NEEDS OF THE ANIMALS.

SUPPLEMENT TO PROOF OF APPROPRIATION OF
WATER FOR STOCK WATERING PURPOSES
FOR SERIAL NOS.

04073, 04074, 04079, 04081, 04082, AND 04083

The following is to supplement the subject serial number filings by RANCHO GRANDE, INC. dated January 27, 1983, being filed in the State Engineer's office on February 11, 1983.

Since the filing of the subject proofs, the waters described therein have been acquired by the undersigned, together with certain improved ranch property which was the winter base for the cattle which established the vested right and the Forest Service grazing permit which encompasses the place of use of the waters.

This supplement is for the purpose of documenting the year of priority claimed in the proofs, the numbers of livestock, and a chain of title to the undersigned.

Year of Priority: The first year of use in the proofs is shown as 1872. This year is documented on Page 354 of that publication entitled, "Nevada's Northeast Frontier" by Patterson, Ulph and Goodwin, which presents a biographical sketch of Daniel Murphy. In that publication, it states:

"As people pressed in, he (Dan Murphy) sought new range and in 1872 he trailed 2500 head of cattle from California to North Fork Country... His vaqueros, driving cattle east along the Humboldt, turned north at the North Fork and established the Rancho Grande. His stock ranged from Rancho Grande to Gold Creek to Lower Diamond A Desert."

Further evidence of numbers of livestock is in the Decree of Distribution of the Estate of Daniel Murphy dated June 15, 1885 and recorded in Book 11 of Miscellaneous Records at Page 547, Elko County, Nevada, which distributes as a portion of his estate Diamond A cattle, being 2600 head, together with lands which were the nucleus of the present Rancho Grande. The portion of that base property is described as follows:

Township 40 North, Range 54 East, MDM

Section 1: S $\frac{1}{2}$ N $\frac{1}{2}$
Section 2: N $\frac{1}{2}$ N $\frac{1}{2}$; S $\frac{1}{2}$ NE $\frac{1}{4}$

Township 40 North, Range 55 East, MDM

Section 5: SW $\frac{1}{4}$ NW $\frac{1}{4}$
Section 6: N $\frac{1}{2}$ SE $\frac{1}{4}$; NE $\frac{1}{4}$ SE $\frac{1}{4}$

Township 41 North, Range 54 East, MDM

Section 15: $W\frac{1}{2}$
Section 22: $W\frac{1}{2}W\frac{1}{2}$
Section 25: $SE\frac{1}{4}; E\frac{1}{2}SW\frac{1}{4}$
Section 27: $W\frac{1}{2}NW\frac{1}{4}; SW\frac{1}{4}$
Section 35: $SW\frac{1}{4}$

Township 41 North, Range 55 East, MDM

Section 30: $S\frac{1}{2}SW\frac{1}{4}$

Over the years, the nucleus of that ranch property was added to and ownership of the above-described property came to Rancho Grande, Inc., along with the grazing area within the Gold Creek area previously referred to, which is now situate within the Humboldt National Forest in that parcel known as the Sunflower Flat Allotment. The permit of Rancho Grande, Inc. within that area was acquired by the undersigned and ANTHONY R. MOISO by waiver of grazing permits executed by Rancho Grande, Inc., a successor to Daniel Murphy, of 367 head of cattle to the undersigned and 157 head of cattle to Anthony R. Moiso. Anthony R. Moiso has assigned any interest which he acquired in said sources to the undersigned by document submitted herewith.

The numbers claimed in the original submission of the proofs were for the total priority as established by Daniel Murphy within the Gold Creek area. As the undersigned acquired that portion of the total priority, or 524 head of cattle, the claim of the undersigned is 524 head of cattle on each of the sources for the period of March 15 to October 15 of each year, and .016 cubic feet per second.

The actual use on each source varies according to a grazing management plan in effect during any particular grazing season.
