A chain of title of the lands now vested in Elias Fernando Goicoechea Family Trust reveals that the predecessor in interest to this operation was W.T. Jenkins Company.

A protest (copy enclosed) against Afterthought Mines Corporation Application Nos. 10318 and 10319, by U.S. Department of Agriculture, executed by C.J. Olsen, Acting Regional Forester, dated March 29, 1939, states that prior to and since the reservation of the Forest lands in 1905, W.T. Jenkins Company had grazed 32,400 sheep in the area of T. 45 N., R. 54 and 55 E., for the period of July 1 to October 1. The Paid Permit Card Record, of the U.S. Forest Service, states the same number, but differs as to the season of use, being June 10 to October 15. By 1918, the numbers had decreased to 24,040 sheep. The record for 1918 states that the area of use is Jack Creek, Owyhee River and vicinity, Allegheny Creek, Mill Creek, and Bank Creek.

The area of operation of Elias Fernando Goicoechea Family Trust represents only a portion of the W.T. Jenkins Company territory.

"W.T. Jenkins Company, at the turn of the century, ran between 15,000 and 20,000 sheep. The company ran during the summer months in the Independence Mountains and Gold Creek areas. In 1908, the W.T. Jenkins Company, had a forest permit for 27,000 head of sheep in this area." (From Nevada's Northeast Frontier, Page 340, by Edna Patterson, et al).

A further search for numbers of livestock was also done in order to corroborate Forest Service information or show use prior to 1905.

The following Chattel Mortgages executed by W.T. Jenkins or W.T. Jenkins Company were found of record in Elko County, Nevada:

1. To First National Bank of Winnemucca on April 22, 1897, listing as security 10,000 sheep, being recorded in Book 3 of Chattel Mortgages at Page 454.
2. To First National Bank of Winnemucca on June 27, 1895, listing as security 18,631 sheep which grazed in Elko, Humboldt and Lander Counties, being recorded in Book 3 of Chattel Mortgages at Page 117. It is assumed that Northern Elko County would have been used by the entire number during summer months.

- 3. To Jacob Rosenberg on December 3, 1894 for 4,002 wethers and 20,000 fleeces, with the sheep being in Lander and Elko Counties, recorded in Book 3 of Chattel Mortgages at Page 40. It is assumed that the fleeces represent 20,000 head owned.
- 4. To Frank F. Martin, dated December 6, 1901, listing as security 10,000 sheep in Elko, Humboldt and Lander Counties, recorded in Book 4 of Chattel Mortgages at Page 360.

The variations in numbers illustrate the fluctuations that occurred in this operation, primarily due to economic and weather conditions. History of Nevada by Thomas Wren, published in 1904, Page 564, states that W.T. Jenkins Company owned 22,000 sheep in Elko, Lander and Humboldt Counties.

As the Elias Fernando Goicoechea Family Trust operation is only a part of the pre-1905 W.T. Jenkins operation, it is difficult to establish a priority number. It is suggested that this be done by reviewing the present licensed numbers and increasing those on the proportion that 10,000 sheep (the claimed operation prior to sale) is to 32,400 sheep as set out in the water protest. Year of priority is basically unrecorded. W.T. Jenkins, by documents of record, is a predecessor of J.A. Blossom in the Battle Mountain area, for which evidence of extensive grazing use is found prior to 1876. The publication entitled Nevada's Northeast Frontier by Patterson, Ulph & Goodwin, Page 339, states that W.T. Jenkins entered the sheep raising business in 1877. From the above, the priority is based upon the dates of the early Chattel Mortgages at 1894.

Within the U.S. Forest, the applicant is claiming a right prior to January 1, 1905, based on the premise that any present permittee upon the U.S. Forest must be successor in interest to persons making use upon forest lands at the time of withdrawal of said lands, which was in 1905; claimant is that successor in interest.

(10) The approximate number of animals watered by the claimant in subsequent years was as follows: 500 Cow/Calf 1000

If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given.

(See Remarks)

(11) The amount of water which has been necessary to be diverted for this purpose has been 0.0309 cubic feet per second.

448.83 gallons per minute equals 1 cubic foot per second.

(12) The works are located at None

United States Department of	:	
Agriculture, Forest Service	:	
	:	PROTEST AGAINST WATER
vs.	:	FILING, STATE ENGINEER'S
	:	OFFICE, APPLICATION
Afterthought Mines Corporation	:	NO'S. 10318 and 10319
of Rio Tinto, Elko County,	:	
Nevada	:	

The United States Department of Agriculture, Forest Service, protests the allowance and approval of application for .25 of a second foot of water to be diverted from an unnamed spring located in the Northeast Quarter of the Southeast Quarter (NE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 12, Township 45 North, Range 54 East, M.D.B. & M., application No. 10318, unsurveyed, and the allowance and approval of application for .25 of a second foot of water to be diverted from an unnamed spring located in unsurveyed Northwest Quarter of the Southeast Quarter (NW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 7, Township 45 North, Range 55 East, M.D. B. & M., Application No. 10319, both applications filed by the Afterthought Mines Corporation of Rio Tinto, Elko County, Nevada.

The United States Department of Agriculture, Forest Service, alleges as follows:

I.

That said springs are entirely on lands belonging to the United States and reserved for national forest purposes in the year 1905.

II.

That prior to and since said reservation the range dependent on said springs for stock watering have been and are now used for that purpose by the W. T. Jenkins Company of Battle Mountain, Nevada, and other users. That in 1911 the W. T. Jenkins Company was issued a permit by the Forest Service to graze on the area dependent on said springs for stock watering and domestic water supply, 32,400 head of sheep, and said company since that time has each year from July 1 to October 1, the grazing season, grazed large numbers of sheep on said area. That the present permitted sheep within said grazing area amounts to 18,084 head.

III.

That the waters of said springs are wholly and entirely within the national forest, and within the grazing area aforesaid and do not flow off said area.

IV.

That the use of the waters of said springs is necessary and appurtenant to the use of the surrounding grazing area.

Handwritten signature

V.

That the appropriation and use of said waters for other purposes would make valueless and impossible the use of the large surrounding area for grazing.

VI.

That the appropriation of the said water by said mining company would disrupt the established rights and make large reductions in stock necessary.

VII.

That the continued use of said springs for stock watering purposes is the most beneficial use to which said waters can be put. That the right to said use had been established by long and continuous use prior to the creation of the national forest, and has been continued since that time under Forest Service permit.

The Forest Service, therefore, requests that the State Engineer reject said applications in conformity with Section 2, of Stock Watering Act, Nevada, of April 1, 1925, and other laws.

I, _____ Acting Regional Forester, do certify that the statements herein are true to the best of my knowledge and belief.
