

(10) The approximate number of animals watered by the claimant in subsequent years was as follows:
300 cattle.

If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given.

(11) The amount of water which has been necessary to be diverted for this purpose has been
.05 cubic feet per second.

448.83 gallons per minute equals 1 cubic foot per second

(12) The works are located at:
A point in the NE¼SE¼ Section 6, T.25N., R.45E., M.D.M.

Describe as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed land, it should be stated.

Remarks

The spring source has been utilized by livestock on the range lands and adjacent irrigated fields since first settlement in the valley. An attempt to develop a well to supply irrigation water from the source was made in 1953; hence the presence of a cased well as described in log #96024.

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by
Carico Valley Land, LP are full and correct to the best of his/her knowledge and belief.
Deponent William A. Nisbet is acting as agent for claimant.

If proof is not made by claimant, deponent should state on this line by virtue of what authority he/she represents the claimant.

Carico Valley Land, LP
Name of Claimant
