Remarks

Hidden Spring was first developed and/or used possibly as early as the 1860's to serve ranchers and miners in the area associated with livestock grazing animals belonging to the predecessors of the Claimant. The Benton Springs just west of Bank Spring were developed to serve a station along an important freight route beginning in the 1860's (Columbus-Wadsworth Freight Route/Toll Road) and also the G & W Toll Road in 1881. Predecessors of the claimant watered horses and cattle beginning around 1880. Cattle use has been continuous since then. Predecessors sheep operators used Hidden Spring and other springs in the area from about 1910 to 1923 and from 1938 to 1975. T. O. McKinnon ran angora goats (up to 9,000 head) in the vicinity from 1923 to 1945. Claimant owns deeded land at Indian Springs and Gillis Spring/Sargent's Well. The Pilot-Table Mountain Grazing Allotment (See attached map) is a water based grazing allotment.

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by David G. and/or Jackie A. Holmgren are full and correct to the best of his/her knowledge and belief.

If proof is not made by claimant, deponent should state on this line by virtue of what authority he/she represents the claimant
