Remarks:

This claim is associated with two ranch properties, one being known as the Goodfellow or Cross Ranch and the other being known as the Knight Ranch, a portion of the JD Ranch. The Goodfellow Ranch was acquired by Floyd Slagowski, one of the original incorporators of the claimant in 1946 and the corporation acquired the Knight Ranch in 1993. (See chain of title attached to Affidavit of Walter I. Leberski filed herein).

The basis of this claim is documentation contained in old files of the Bureau of Land Management, copies of which are attached to the Affidavit of Walter I. Leberski.

George Goodfellow stated that he ran upon the range all the cattle that the hay crop would carry in his application for grazing permit dated March 27, 1935. He further states that at that time he owned 1,100 cattle which grazed in Pine Valley. This number of cattle is substantiated in a February 1870 issue of Elko Independent newspaper, which states that the Bradleys, predecessors to the claimant, ran from 1,500 to 2,000 cattle beginning that operation in 1864. These numbers are further substantiated by tax records maintained in the Office of the Eureka County Treasurer as to numbers of livestock assessed to the owner of the ranch property. Paul Lane, a predecessor in interest, was assessed for numbers during the years specified as follows:

<u>Year</u>	<u>Cattle</u>	<u>Horses</u>
1895	725	100
1896	1,000	100
1897	900	100
1898	600	100
1899	600	100

As to priority, George Goodfellow states that the range had been used for 66 years prior to 1935 or starting at 1869 which date is comparable to the newspaper account referred to above.

As to season of use, Goodfellow states it is April 1 to December 1.

The claimant purchased property which is known as the Knight Ranch in 1993. The early owners of this ranch and additional property were Winzell and Cockrill. A chain of title attached to the Affidavit of Walter I. Leberski indicates that this property started using the range on or before 1887. This property was part of that ranch known as the JD Ranch, owned in the priority years by the Winzells and later by Winzell and Cockrill. The Eureka County Assessment Roll shows that by 1880, Joseph Winzell was assessed for 750 head of cattle. although this ranch is located some 24 miles from the Goodfellow property (also known as the Cross Ranch), the cattle from both ranches intermingled on the open range. (See Affidavit of E.r. Henderson attached to Affidavit of Walter I. Leberski). Therefore, upon acquisition of the Knight Ranch, the claimant's grazing use in the area of the source became a combination of othe Knight and the Goodfellow Ranch.

Grazing licenses issued by the Bureau of Land Management (formerly Grazing Service) show that George Goodfellow had a right for 415 cattle and horses, and Stephen Damele, successor to Winzell and Cockrill for 800 cattle. It is noted that only 50% of the 800 cattle were licensed in the Elko Grazing District, which would indicate 400 head of cattle from in the area of the source from the Knight Ranch. However, upon acquisition of the Knight Ranch the permit issued by the Bureau of Land Management to the claimant in the South Buckhorn Unit (being the area of the source herein), the numbers of livestock increased 320 cattle to 1080 cattle or 760 head of cattle increase. the predecessors to the Knight Ranch had acquired additional grazing privileges in the area which accounts for the increase of numbers for the Knight Ranch from 400 to 760 cattle. Therefore the total numbers of cattle making use within the area of the source became 1175 cattle. From experience in managing livestock in the area, it is the opinion of the claimant that 200 cattle use the source periodically during the grazing season.

For chain of title of the ranch properties, evidence of numbers of livestock and other references herein, refer to documents attached to Affidavit of Walter I. Leberski.
