COUNTY CLERK

Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land it should be stated.
Diversion over a channel reach must be described by course and distance to a section corner for both the beginning and end of such.

(5) The water is impounded in natural channel
Troughs, tanks, pools, reservoir, natural channel, etc.

(6) The construction of the ditch or other works was begun N/A
and completed N/A Date

(7) The nature of the claimant's title to the land upon which the source of water and place of use are located is:

Patented

Patented, deeded, public domain with grazing permit, etc.

(8) The claimant's water right was not recorded in the office of the County Recorder of
County, at Page of Book of

NOTE - Failure to record in the county in no way invalidates a water right, but if water right was so recorded, supply full information under (8).

(9) The approximate number of animals watered by the claimant during the first year N/A
was cattle horses sheep or wildlife (describe) Date See item #10

The watering was conducted during each of the following months:

January 1 - December 31

Handwritten initials

(10) The approximate number of animals watered by the claimant in subsequent years was as follows:

376 wild horses, 2,386 deer, 494 antelope & 476 bighorn sheep. Their water needs are 20 GPD. These wildlife estimates were made by the BLM in 1991 and are subject to revision. Efforts to obtain wildlife species and numbers from NDOW have been unsuccessful to date & claimant reserves right to amend number and species.

If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given.

(11) The amount of water which has been necessary to be diverted for this purpose has been

0.011 (see remarks) cubic feet per second.

448.83 gallons per minute equals 1 cubic foot per second

(12) The works are located at:

No works of diversion

Describe as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed land, it should be stated.

Remarks

See attached two (2) Chain of Title Guarantee documents which include abstracts of title and deeds.

Flow based upon measurement estimate on 9/8/10 which would represent a minimum flow from source which likely has seasonal variation. See attached photographs of spring.
