(9) The approximate number of animals watered by the claimant during the first year Prior to 1884
was 1000 cattle 100 horses sheep or wildlife (describe)
Date

The watering was conducted during each of the following months:
January 1 through December 31

143-ES

(10) The approximate number of animals watered by the claimant in subsequent years was as follows:

Currently the various allotments held by the James R. Boyce Revocable Living Trust dated February 1, 2010 provide for 312 cattle. This water source is located on privately held land and the actual number of livestock (horses and cattle) watered from this source varies.

If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given.

(11) The amount of water which has been necessary to be diverted for this purpose has been

0.05 cubic feet per second.

448.83 gallons per minute equals 1 cubic foot per second

(12) The works are located at:

Lot 3 (NE 1/4 NW 1/4), Section 4, T.4S., R.38E., M.D.B. & M.

Describe as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed land, it should be stated.

Remarks

GLO survey records show that this area was inhabited as early as 1884. The nearby Silver Peak Mining District was first settled in 1863 and the surrounding countryside was explored and inhabited shortly thereafter. The Cow Camp area is believed to have been first settled by Harry Stimler

Claimant reserves the right to amend this proof as additional information becomes available.
