of Application Number 53969, filed on October 17, 1989

by Las Vegas Valley Water District, Las Vegas, State of Nevada to appropriate the
Printed or typed name of applicant

waters of underground source situated in Nye
Underground or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

Inter-basin transfer of water will eventually lower basin underground aquifiers and thus cause springs to dry up or diminish flows to same.

Also, I have been denied water for Desert Land Entries in the same basin (Application No.'s 36817 and 36818). If there is not enough water for use within the basin, there surely is no water available for inter-basin transfer.

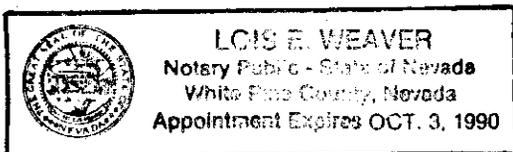

THEREFORE the protestant requests that the application be denied
(Denied, issued subject to prior rights, etc., as the case may be)

and that an order be entered for such relief as the State Engineer deems just and proper.
