

5. The application involves an interbasin transfer and should be rejected pursuant to NRS 533.370(6) for, among other reasons, the applicant's failure to:

- A. justify the need to import water to the other basin(s);
- B. demonstrate that a conservation plan(s) has been adopted and effectively carried out for the other basin(s);
- C. demonstrate that the proposed export of water from the basin is environmentally sound;
- D. demonstrate that the proposed action is an appropriate long-term use which will not limit growth and development in the basin; and,
- E. identify the specifics of the proposed project, including the basin(s) into which water will be imported.

6. The application for interbasin transfer should also be rejected pursuant to NRS 533.370 for the lack of information regarding:

- A. access to the use of public/private lands necessary for the construction of the works of diversion and the means of conveyance;
- B. financial ability to construct the works and apply the water to the intended use with reasonable diligence;
- C. technical feasibility to construct the works and apply the water to the intended use with reasonable diligence; and,
- D. justification for the quantity of water required for the proposed project.

7. Granting the application would threaten to prove detrimental to the public interest.

8. Granting the application would threaten to prove detrimental to the public interest in ways that are not yet known to this Protestant, but which may arise or first become known to this Protestant in the period between the date of filing of the Application and the hearing on the protested Application.

9. Granting the application would threaten to prove detrimental to the public interest and the interests and rights of The Long Now Foundation for the reasons stated above, and because among other things, it would:

- A. result in degraded air quality and adverse impacts to visual resources in the region;
- B. result in adverse economic impacts due to degraded air quality and visual resources;
- C. result in adverse impacts to hydrological, biological, cultural, and environmental resources;
- D. result in adverse impacts to the riparian vegetation and natural habitat that support sensitive plant and animal species in the region;
- E. result in adverse impacts to the water resources in adjacent basins;
- F. result in interference with artesian water sources, springs, and seeps in the region; and,
- G. otherwise adversely affect the interests of The Long Now Foundation.

10. This Protestant incorporates in this Protest by reference, as if fully set forth herein, every relevant protest ground set forth in any other Protest filed by any other Protestant regarding this application.
