

IN THE OFFICE OF THE STATE ENGINEER OF THE STATE OF NEVADA

IN THE MATTER OF APPLICATION NUMBER 54024  
FILED BY Las Vegas Valley Water District  
ON October 17 1989, TO APPROPRIATE THE  
WATERS OF Underground, Snake Valley.

PROTEST

Comes now Eskdale Center Printed or typed name of protestant

whose post office address is 1100 Circle Drive, Eskdale, UT 84728-9702  
Street No. or P.O. Box, City, State and Zip Code

whose occupation is Agricultural Community, and protests the granting

of Application Number 54024, filed on October 17, 1989.

by Las Vegas Valley Water District to appropriate the

waters of Underground, Snake Valley situated in White Pine  
Underground or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

- 1. Approval of this application would jeopardize the community water supply that is now being developed in Snake Valley for the town of Baker, by means of the Baker General Improvement District. This quasi-municipal water system is necessary for the healthy growth and economic development of Snake Valley, and to serve the 80,000 annual visitors to Great Basin National Park.

SEE ATTACHMENT

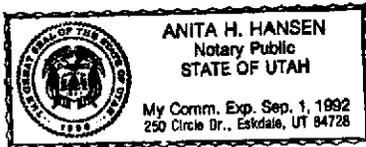

THEREFORE the protestant requests that the application be DENIED  
(Denied, issued subject to prior rights, etc., as the case may be)

and that an order be entered for such relief as the State Engineer deems just and proper.

Signed Randell A. Faber Gen/Man  
Agent or protestant

2. The granting or approval of said application would be detrimental to the welfare of the general public in that: (i) water rights in adjoining Utah communities would be affected, insomuch as a lowering of the water table affects the aforementioned communities access to their own water supply, (ii) possible contamination of deeper aquifers with upper level ground water due to lowering of the water table in nearby Utah communities, (iii) infringement upon the rights, health, and economic well being of citizens of the State of Utah without formal agreement or approval according to accepted legal procedures.

3. With an average yearly rainfall of just six inches there is insufficient replenishment for the groundwater applied for without affecting the groundwater currently being used by both Utah and Nevada residents. The protestant being a nearby community with an agricultural support base will be severely affected economically in the event of lowering of current groundwater levels: (i) current wells have produced consistently for nearly 40 years, (ii) the cost of drilling deeper wells has increased many fold over that 40 year period, (iii) it would place unnecessary hardship on, and thereby threaten the economic survival of the protesting community if the Application mentioned above is approved.

4. Inasmuch as a water extraction and transbasin conveyance project of this magnitude has never been considered by the State Engineer, it is therefore impossible to anticipate all potential adverse effects without further information and study. Accordingly, the protestant reserves the right to amend the subject protest to include such issues as they may develop as a result of further information and study.

5. The undersigned additionally incorporates by reference as though fully set forth herein and adopts as its own, each and every other protest to the subject application filed pursuant to NRS 533.365.
