waters of Underground situated in Lincoln
Underground or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

The appropriation of this water when added to the already approved
appropriations and dedicated users in the 202 Basin will exceed the annual
recharge and safe yield of the basin. Diversion and export of such quantity
of water will lower the static water level, consequently adversely effect-
ing the quality of remaining ground water and further threaten springs and
seeps which provide water and habitat critical to the survival of wildlife,
grazing livestock and other surface uses.

THEREFORE the protestant requests that the application be Denied
(Denied, issued subject to prior rights, etc., as the case may be)

and that an order be entered for such relief as the State Engineer deems just and proper.
