waters of Underground
Underground or name of stream, lake, spring or other source situated in Lincoln

County, State of Nevada, for the following reasons and on the following grounds, to wit:

The appropriation of this water, when added to the already approved appropriations and dedicated users in the 202 Basin will exceed the annual recharge and safe yield of the basin. Appropriation and use of this magnitude will lower the water table and degrade the quality of water from existing wells. As a 35-year Clark County and Lincoln County resident, I deplore the current waste of water in Clark County. There is an over-abundance of golf courses and the man made lakes, with more being built, have an evaporative waste of water. Clark County needs to set some stringent water usage guidelines before it tries to rape other Counties.

THEREFORE the protestant requests that the application be Denied
(Denied, issued subject to prior rights, etc., as the case may be)

and that an order be entered for such relief as the State Engineer deems just and proper.
