IN THE OFFICE OF THE STATE ENGINEER OF THE STATE OF NEVADA

In the Matter of Application Number 62440
Filed By U.S. Fish & Wildlife Service
On September 4 , 1996 , To Appropriate The
Waters of: Certificate 10019 an underground source

FILED
FEB 18 1997
STATE ENGINEER'S OFFICE

ComesNow see attached
Printed or typed name of Protestant

Whose post office address is
Street No. Or P.O. Box, City, State and Zip Code

whose occupation is, and protests the granting

of Application Number 62440, filed on September 4, 19 96

by United States Fish & Wildlife Service to appropriate the

waters of Certificate 10019 an under ground source situated in Pahranagat Valley, Lincoln
Underground or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:
USF &WS has proposed a recovery Plan for the Pahranagat Valley Chub & other aquatic species that will infringe upon private property and water rights of the residents of the Valley. USF&WS proposal has been unanimously opposed by the owners of said property & water rights holders as well as residents of the community. This application is seen as a way to avoid settling the USF&WS disagreement with the citizens of Pahranagat Valley. The use is to support and maintain wildlife,the current use, the change does not seem to make sense. The various recovery plans proposed will adversely affect the economy, custom and culture of Pahranagat Valley Residents and the residents of Lincoln County. We protest change of season of use, and the manner of beneficial use. We question federal ownership of water, NRS was added to in 1995 which allowed federal water holdings jointly with residents. The change of season and extension of months of use can and will have negative impacts on the surrounding water rights holders. The proposal doesn't seem to be necessary in view of the fact that the USF&WS already has rights and the proposed change of customary uses can have a negative impact on the other water rights that use the water for irrigation. If USF&WS quit irrigating their noxious weed problem will endanger the agri-business in the valley. The USF&WS doesn't maintain their channel, thus they don't get all possible water, and they create a hazard for the private property users along the channel. USF&WS has not proven to be a good neighbor and has not kept up with their agreements to allow cattle to use the water, they fenced it off after agreeing to allow continued use. This history along with other proposals the this agency is involved with is seen as a threat to property rights, economy and the culture of the valley. Stock water rights must be preserved and theUSF&WS cannot be allowed to 'take' additional water in times of drought.

THEREFORE the Protestant requests that the application be denied
Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such as relief as the State Engineer deems just and proper.

Signed Shelley Wadsworth
