**\$25 FILING FEE MUST ACCOMPANY PROTEST. PROTEST MUST BE FILED IN DUPLICATE.**  
**ALL COPIES MUST CONTAIN ORIGINAL SIGNATURE.**

Attachment "A"

1. The Protestant owns permitted and certificated artesian ground water rights (Permits 51639 – 51642) which have priorities of 1987. These waters are for irrigation, domestic and commercial purposes. The operation relies upon the natural artesian flows from four ground water wells. These wells may cease to flow if the applications are approved given the large proposed diversion rates of 5 cfs and points of diversion located within 3-5 miles of the Protestant's wells. There is no commercially available power at the Protestant's site to pump the wells, therefore if the wells cease to flow naturally, irrigation and commercial use will become impractical.

This application, if granted, will conflict with existing and prior rights held by the Protestant and others in the Smoke Creek Desert.

2. Based on existing and pending applications within the Smoke Creek desert, there is in excess of 70,000 acre-feet of ground water which has either been permitted or applied for with senior priorities. The perennial yield of the basin has been estimated at 16,000 acre-feet per year by the USGS. Therefore there is no unappropriated water in the Smoke Creek Desert.

3. The Protestant reserves the right to amend and add to this protest as new information becomes available regarding the applications.

4. The Protestant hereby reserves the right to adopt the arguments presented in any other protest to these applications.

5. The granting of the application will be detrimental to the public interest.

6. The applicant has recently protested similar applications for appropriation (68807 – 68811) on the grounds that there is no unappropriated water available in Basin 21, the use will conflict with existing and prior rights and the applications would be detrimental to the public interest. The applicant asked that these applications be denied.
