

...for reasons and on the following grounds, to wit (applications 69878 to 69893):

- 1) the applicant has no cooperative agreement filed with BLM for use of public land for such purposes.
- 2) The application for municipal water extraction on public land is inconsistent with the current land use plan.
- 3) The application for the use of groundwater for hydroelectric power generation is inconsistent with the current land use plan
- 4) BLM believes that the extraction of waters applied for in permits 69878 to 69893 (approx 442,000 cfs) is greater than the local aquifer can produce.
