of Application Number 71225, filed on 8/16/04

by Vidler Water Co. to appropriate the  
Printed or typed name of applicant

waters of Basin 163 - Sandy Mesquite situated in Clark  
Underground or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

The Vidler well in Section 14 is located in the same basin that serves the population. This application, if granted, will ultimately result in an unreasonable lowering of static and pumping water levels. This could result in intrusion of the poorer quality water on the California side of the basin into the Nevada side of the aquifer. Lowering of water levels will eventually impact even the Vidler well.

THEREFORE the protestant requests that the application be denied  
(Denied, issued subject to prior rights, etc., as the case may be)

and that an order be entered for such relief as the State Engineer deems just and proper.
