County, State of Nevada, for the following reasons and on the following grounds, to wit:

The point of diversion specified in this application is located on, or immediately adjacent to, public land. To date the applicant has not sought, nor have they received, authorization from the Bureau of Land Management to conduct these activities on public land. Aqua Trac LLC has cumulatively filed numerous water right applications in this same vicinity for a large volume of water. In the event that these applications are not speculative then Aqua Trac, LLC will be required to apply for and be granted a right-of-way for their transmission line(s) and infrastructure.

THEREFORE the Protestant requests that the application be Denied, pending further information and action.....
