of Application Number 76229, filed on September 6, 2007

by Rockview Dairies, Inc. to appropriate the

waters of an underground source situated in Amargosa Valley, NV
Underground or name of stream, lake, spring or other source Nye County

County, State of Nevada, for the following reasons and on the following grounds, to wit:

I am very concerned about the water in our valley. The Dairy has been continually purchasing water rights in other parts of the valley and moving them to their Mecca location. I feel that this is causing and will continue to cause a funnel affect on our underground water supply.

My well is located west of the dairy and was here before the dairy. I have been told by the local well driller that it is collapsing. I have also been told that the water table has dropped well over 30 feet since the dairy has begun operation. There for where does the liability fall when my well is no longer usable? I have installed a whole house filter as there been increased sediment over the past years, and we have to change the filter far above the normal rate.

THEREFORE the Protestant requests that the application be Denied
Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such relief as the State Engineer deems just and proper.
