**Blue Diamond Protest
Applications 76580 and 76583**

The BLM has a congressionally mandated responsibility to protect springs and riparian habitat on Public Lands. There are Public Lands downstream of the applications. The above mentioned applications could result in effects on riparian habitat on Public Lands due to effects on in stream flow. Changes to stream flow could also affect wildlife habitat which BLM is responsible to manage. Additionally, Executive Order 13443 of August 16, 2007 requires Federal agencies to facilitate the expansion and enhancement of hunting opportunities and the management of game species and their habitat. Development by these applications could affect hunting opportunities negatively.
