

IN THE OFFICE OF THE STATE ENGINEER OF THE STATE OF NEVADA

IN THE MATTER OF APPLICATION NUMBER 76803
FILED BY KOBEH VALLEY RANCH LLC
ON MARCH 11, 2008, TO APPROPRIATE THE
WATERS OF UNDERGROUND (EUREKA COUNTY)

FILED
MAY 29 2008
STATE ENGINEER'S OFFICE
PROTEST

RECEIVED MAY 29 2008

Comes now EUREKA COUNTY
Printed or typed name of protestant

whose post office address is P.O. BOX 677, EUREKA, NEVADA 89316
Street No. Or P.O. Box, City, State and Zip Code.

whose occupation is POLITICAL SUBDIVISION and protests the granting
of Application Number 76803 filed on MARCH 11, 2008

by KOBEH VALLEY RANCH LLC to appropriate the
waters of UNDERGROUND situated in EUREKA
Underground or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

SEE EXHIBIT "A" ATTACHED

THEREFORE the Protestant requests that the application be DENIED
Denied, issued subject to prior rights, etc., as the case may be

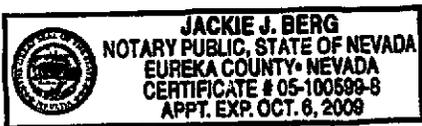

and that an order be entered for such relief as the State Engineer deems just and proper.

Signed [Signature]
Agent or protestant

J.P. "JIM" LITHURRALDE, CHAIRMAN, COUNTY COMMISSIONERS
Printed or typed name, if agent

Address P.O. Box 677
Street No. or P.O. Box No.
EUREKA, NEVADA 89316
City, State and Zip Code No.

Subscribed and sworn to before me this 23rd day of MAY, 2008

[Signature]
Notary Public

State of NEVADA
County of EUREKA

**\$25 FILING FEE MUST ACCOMPANY PROTEST. PROTEST MUST BE FILED IN DUPLICATE.
ALL COPIES MUST CONTAIN ORIGINAL SIGNATURE.**

OK

Exhibit "A"

Eureka County Amended Protests to Kobeh Valley Ranch LLC Application Nos. 76802 through 76805

1. Diamond Valley is a designated basin per NRS 534.050. The yield of the basin is 30,000 acre feet annually ("afa") per the State Engineer's records. The existing water right appropriations in the basin total approximately 133,816 afa. Irrigation use in 2007 per the State Engineer's pumpage inventory was 95,738 acre feet. Ground water in the basin is over appropriated. Granting change applications that are not supported by adequate proof of beneficial use will cause the basin to be over pumped to the detriment of the basin, prior existing water rights holders and in direct conflict with forfeiture and/or cancellation provisions of Nevada water law. In the same way, transfer of supplemental ground water rights will cause the basin to be over pumped to the detriment of the basin and prior existing water rights holders.
2. Existing USGS reports suggest that Kobeh Valley may provide underground flow to Diamond Valley. Sustained over pumping in Kobeh Valley and Diamond Valley is likely to affect prior existing municipal water rights held by Eureka County and Devils Gate GID that supply the majority of the population in Diamond Valley.
3. As noted in Item 15 of the Applications, the applications are intended to be utilized in conjunction with other applications previously filed by Idaho General Mines, Inc. and the applicant with points of diversion in Kobeh Valley, Pine Valley and Diamond Valley and places of use in Kobeh Valley, Pine Valley and Diamond Valley. Kobeh Valley is a designated basin per NRS 534.050. Ground water in the Kobeh Valley basin is fully or nearly fully appropriated at approximately 18,000 acre-feet per year. Sustained over-pumping in Kobeh Valley and Diamond Valley is likely to impact irrigation and stockwatering water right holders in Kobeh Valley and Diamond Valley and impact domestic well owners. Sustained over-pumping in Kobeh Valley may impact irrigation and stockwatering water rights and impact domestic well owners in Diamond Valley and Pine Valley. The owners of these rights contribute to the long-term economic viability of the greater Eureka community; therefore, unless adequately mitigated, such impacts may prove detrimental to the health and welfare of Eureka County.
4. Hydrologic properties of the proposed points of diversion are currently being analyzed; therefore, impacts associated with sustained pumping of substantial water rights at the proposed points of diversion are not known. Propagation of the cone of depression from the proposed points of diversion must be adequately determined prior to granting the applications. Eureka County requests the ability to review all hydrologic data offered in support of the applications.
5. The proposed points of diversion lie in Basin 153 (Diamond Valley), while the proposed place of use may ultimately include portions of Basin 139 (Kobeh Valley) and Basin 53 (Pine Valley); therefore the applications may call for a transfer of ground water out of the source basin for use in another basin. Compliance with the requirements of NRS 533.370(6) must be met.
6. The works necessary to achieve beneficial use of the subject water rights are substantial and costly. The applicant has not presented the State with the scope of its proposed works, nor has the applicant demonstrated its ability to finance the works. Eureka County remains unclear whether the applicant is a mining company or a holding company. Eureka requests the opportunity to 1) review a proposed scope of work to achieve beneficial use and 2) satisfy its concerns regarding corporate purpose and financial ability.

Eureka County Amended Protests to Kobeh Valley Ranch LLC Application Nos. 76802 through 76805

7. As noted in Item 15 of the Applications, the applications are intended to be utilized in conjunction with other applications previously filed by Idaho General Mines, Inc. and the applicant. All of the subject applications cannot be granted because the amount of water applied for greatly exceeds the 16,000 afa the applicant states is necessary for its mining project.
8. Eureka County recognizes that the custom and culture of mining is part of its history and appreciates the role mining plays in its local and regional economy. Eureka County welcomes new opportunity for mining in its communities as long as mine development is not detrimental to existing economic or cultural activity. This protest is aimed at ensuring that any development of water resources in Kobeh Valley, Pine Valley and Diamond Valley is conducted in full accordance with Nevada law, the Eureka County Master Plan and related ordinances, and does not unduly threaten the health and welfare of Eureka County citizens. Eureka County encourages the proponents of these applications to engage its representatives, Eureka County and the Office of the State Engineer in dialog that will result in a binding, mutually-beneficial agreement for development and management of these ground water resources and mitigation of any impacts from the pumping of the applied for water rights, including but not limited to, reinjection or infiltration of water not consumed in the mining operation back in to the basin of origin in Eureka County to mitigate the effects of the Applicant's pumping and limitation of the use of the water in Eureka County.
9. The manner of use of water under the subject applications is by nature of its activity a temporary use. Because it is a temporary use, any permits granted should be subject to a restriction that any application to change the manner of use under any such permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the groundwater basin, or that at the end of the mining use, the water will revert back to the source.
10. The State Engineer should consider the consumptive use of the water rights sought to be changed and the consumptive use of the proposed beneficial use of water in determining whether the proposed change in the place of diversion, manner of use and place of use complies with the provisions of NRS 533.3703.
11. Should these protests result in hearings before the State Engineer, Eureka County requests that such hearings be held in Eureka to facilitate access by the body of protestants.
