Street No. Or P.O. Box, City, State and Zip Code.

whose occupation is Ranching and Livestock..... and protests the granting

of Application Number 77430....., filed on September 30....., 2008.....

by Preppy Vision LLC.....to appropriate the

waters of Underground.....situated in Lyon.....
Underground or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

There was no Desert Creek Decree C-125 Claim #173 used during the 2008 irrigation season. The applications for permits #20014 and #18435 both state that, "This well water will supplement decreed water from Desert Creek."

The decreed water was routed around and thru the ranch and piped into the Saroni Canal. The Irrigation Wells under permit 20014 and 18435 are pumping directly into the pivot which does not allow for the surface water to be used on the 458 (approx.) Acres.

There could be more than normal decline in the static water levels and the water level on my irrigation well could be lowered if this practice should continue.

By not applying surface water to help recharge the ground, this requires more pumping and could cause my irrigation well to have a lower water level. By using the Desert Creek Decree surface water it only requires pumping about half the water, more or less, from the underground supply.

I hope that this situation can be corrected with the applicant listed above.

THEREFORE the Protestant requests that the application be denied until this problem can be corrected and that both the surface and supplemental well waters are used together as stated in the application to the permits #20014 and #18435 and that an order be entered for such relief as the State Engineer deems just and proper.
