and protests the granting

of Application Number 79231

, filed on January 21

, 20 10

by Young Bros, a Nevada General Partnership

to appropriate the

waters of Sante Fe Creek

situated in Lander

Underground or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

According to the Kingston Creek Final Decree in 1963 and approval of permits 67295,67296,67297 the applicants are required to place measuring devices in compliance with these documents. The official ruling dated October 8, 2007 states that approval will be granted subject to "the installation of continuous recording devices that have been approved the the State Engineer as to their model type and location. These devices will be installed at locations determined by the office of the State Engineer, the cost of their installation, monitoring and continued maintenance will be borne by the water right holders". In a letter dated April 6, 2009 from the State Engineer to the Kingston Town Board it states-"...a USGS style staff gauge must be installed in the structure(Sante Fe and Shoshone Creek) in addition to a water level recorder... B. The measuring device on Kingston Creek must be installed above the confluence of the Sante Fe channel. The measuring device will consist of a 3 foot Parshall Flume with a stilling well, in addition to a USGS staff gauge and a water level recorder." The Kingston Town Board believes these requirements should be met before any new application are approved.

THEREFORE the Protestant requests that the application be

Denied

Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such relief as the State Engineer deems just and proper.
