Underground or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

the proposed use would be detrimental to the public interest on environmental grounds and would be environmentally unsound as it relates to the basin from which the underground water in Snake Valley is proposed to be exported. The proposed use would be detrimental to the conservation and sustainability of the Bonneville Cutthroat Trout and other aquatic wildlife who are dependent on a functional aquatic-riparian ecosystem under existing streamflow and groundwater conditions which could be rendered depleted and/or lost due to the massive proposed network of wells and groundwater pumping which would deplete existing perennial streams in which these species occur in Snake Valley from the South Snake Range northward to the North Snake Range and to the Deep Creek Mountain Range, in the Nevada and Utah area of the Snake Valley Basin. The Attachment to this Protest briefly describes additional reasons and grounds for this protest of 79-272 filed January 28, 2010 by the Southern Nevada Water Authority.

THEREFORE the Protestant requests that the application be Denied

Denied, issued subject to prior rights, etc., as the case may be
