whose occupation is a political subdivision of the State of Nevada, and protests the granting
of Application Number 79770, filed on APRIL 8, 20 10,

by JOAN COOPER to appropriate the
waters of UNDERGROUND situated in Washoe
Underground or name of stream, lake, spring, or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

This application seeks to appropriate Ground water rights from the Truckee Meadows basin. It is well known that the ground water resources of this basin are fully appropriated. However, this application seeks to appropriate water for beneficial uses that have existed since the 1960s. Therefore, based on these facts Washoe County requests that the following conditions be imposed on these permits if the State Engineer determines to grant; 1) the ground water rights remain appurtenant to the subject lands in perpetuity, 2) The State Engineer will not grant any applications to change the Points of Diversion, Place and Manner of use under these permits, 3) If the current use ceases to exist as a result of redevelopment of this property, where all the current structures are demolished and are to be replaced with new commercial/residential/ industrial structures, that the water rights will become cancelled and of no use to support the new development.

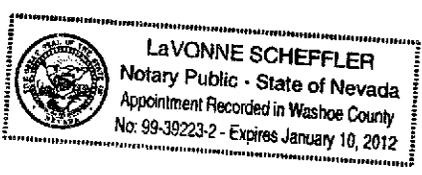

THEREFORE the protestant requests that the application be Conditionally Approved
Denied, issued subject to prior rights, etc., as the case may be
and that an order be entered for such relief as the State Engineer deems just and proper.
