of Application Number 81073, filed on 08/12/2011

by the Southern Nevada Water Authority to appropriate the

waters of STREAM (MEADOW CREEK) situated in WHITE PINE County (SPRING VALLEY - 184),

State of Nevada, for the following reasons and on the following grounds, to wit:

- 1) the applications would prove detrimental to public interest by drying the spring, wetlands, and riparian areas of and around MEADOW CREEK and affecting wildlife dependent on this and down stream water sources and wildlife habitat.
2) the applications would conflict with existing water rights either directly or by preventing natural recharge of basin-fill aquifers, reducing perennial yield, and adversely affecting senior water rights, also dependent on flows from MEADOW CREEK .
3) the applications would be an inappropriate use for irrigation on a year-round basis.
4) there is insufficient water for appropriation.

THEREFORE the Protestant requests that the application be DENIED

and that an order be entered for such relief as the State Engineer deems just and proper.
