Street No. or PO Box, City, State and ZIP Code

whose occupation is Federal Agency and protests the granting

of Application Number 81232, filed on October 11, 20 11

by Lincoln County Water District and Vidler Water Company for the

waters of an underground source situated in Lincoln
an underground source or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

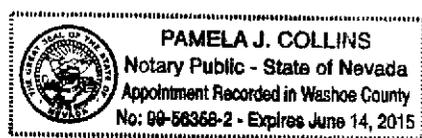

Approval of this application would not be within the public interest and may conflict with existing rights. The perennial yield currently recognized by the State Engineer for Dry Lake Valley is 12,700 AFA. This application coupled with existing permitted rights and existing applications in Dry Lake Valley will exceed the basin's perennial yield. The Bureau of Land Management (BLM) is currently working on an Environmental Impact Statement to determine impacts to resources from pumping in Dry Lake Valley. This analysis has identified that increases in pumping in Dry Lake Valley may affect ground-water flow paths and capture ground-water which would impact U.S. Fish and Wildlife resources and water rights in adjacent basins.

THEREFORE the Protestant requests that the application be Denied
Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such relief as the State Engineer deems just and proper.
